

HTML5 - CMS

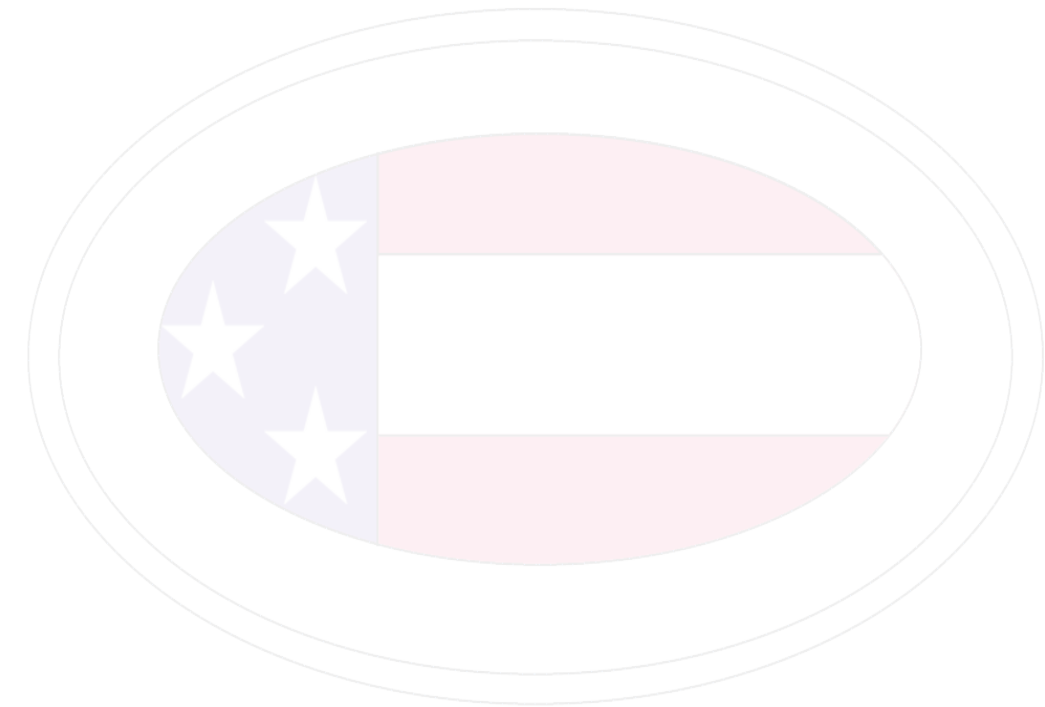

Table of Content

What is HTML5 CMS?

What is the Admin Section?

How each function works:

- * Titles & Info
- * Post
- * Social Media
- * Icons
- * Admin Page

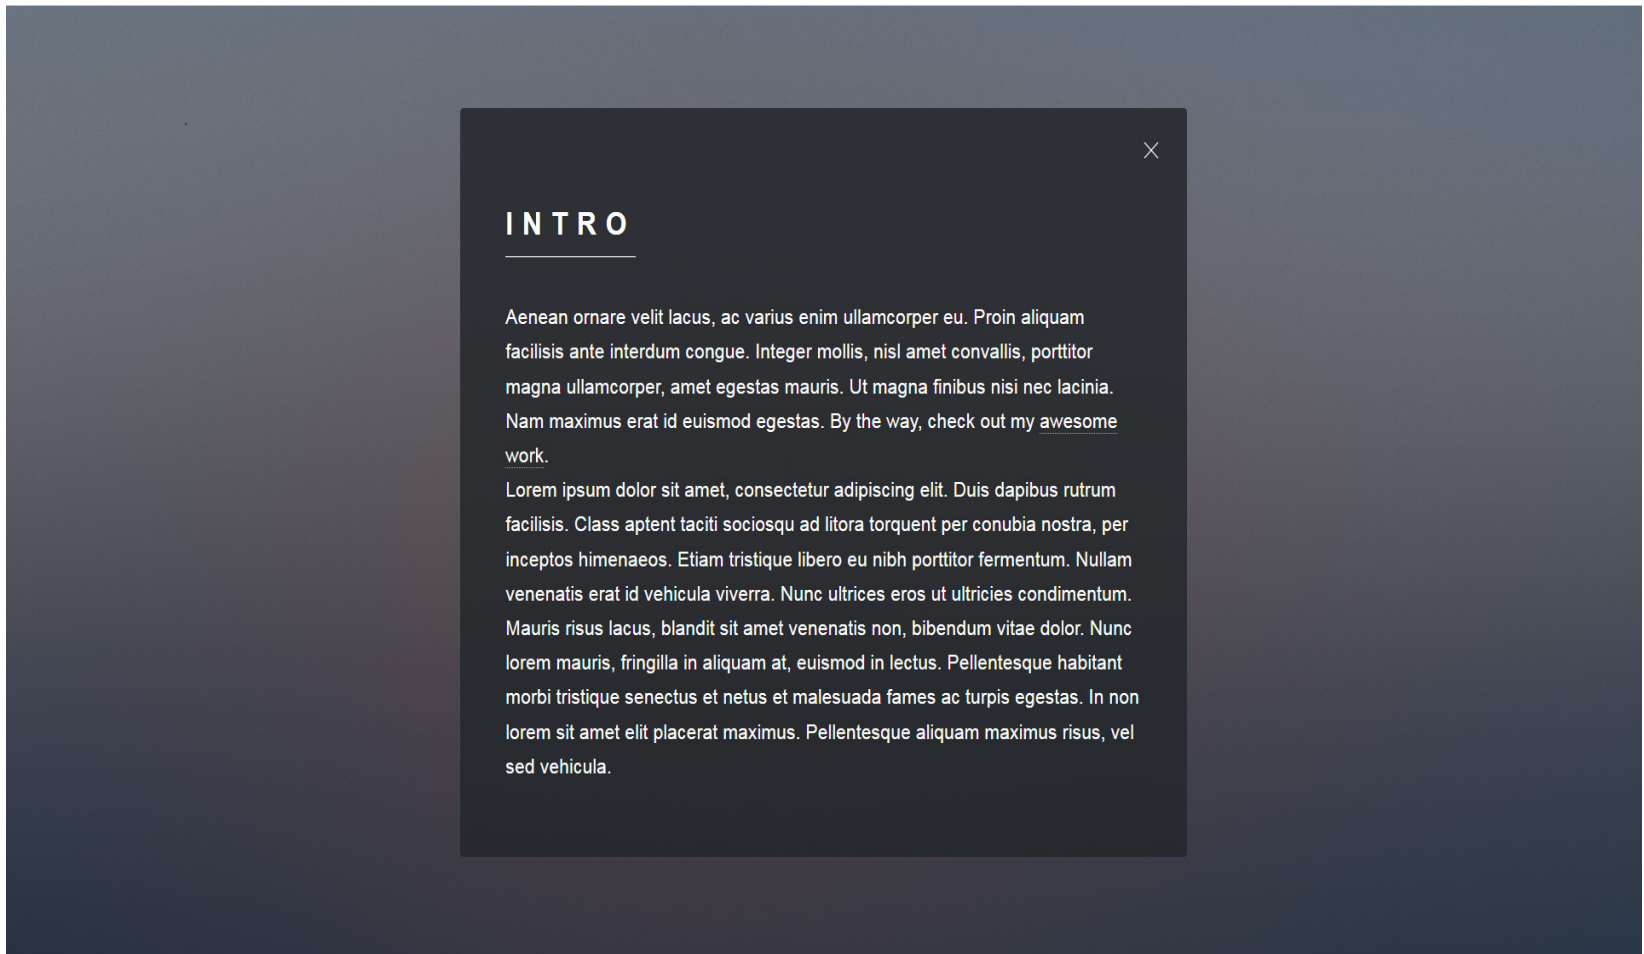

What is HTML5 CMS?

The HTML5 CMS is a customize CMS for the this HTML5 design. I implement the backend for this HTML5 design where the user can update the info and images on the website without any assistant.

The name of the design is called **Dimension**. You can view and down the template [here](#)

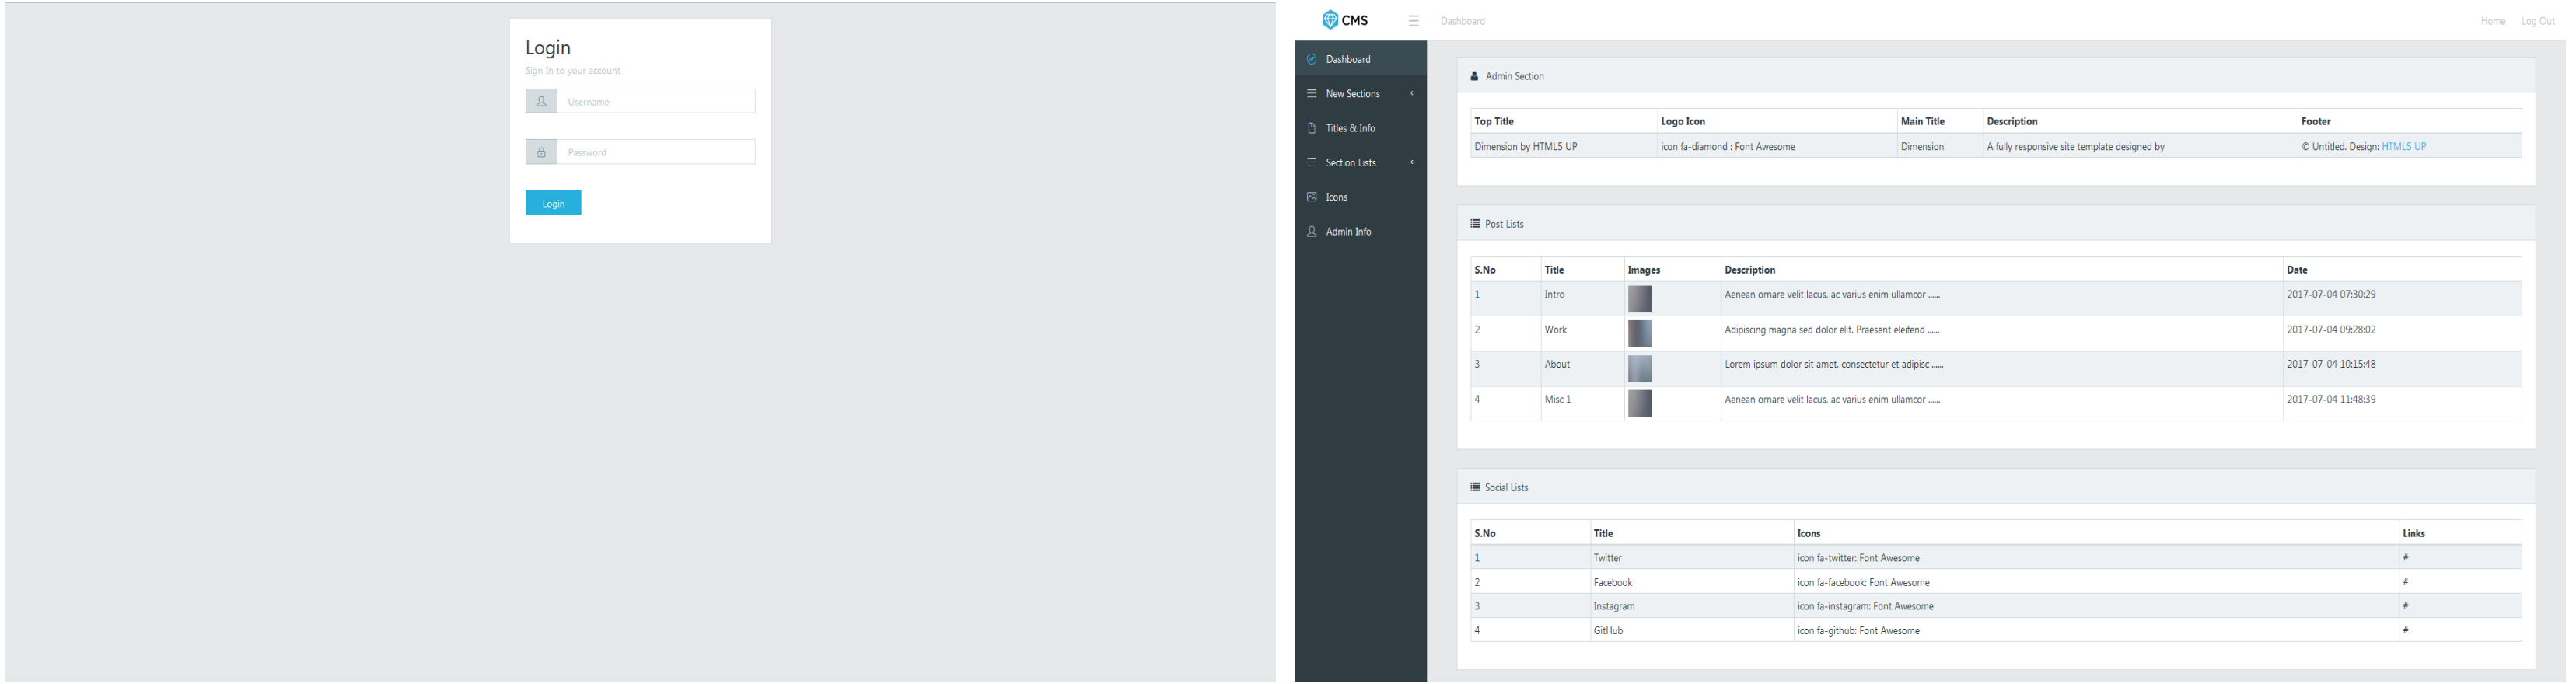

These 2 images below show the homepage design and 1 section design:

What is the Admin Section?

The **Admin Section** is where the user login to dashboard and update or make changes on the info and also update the images.

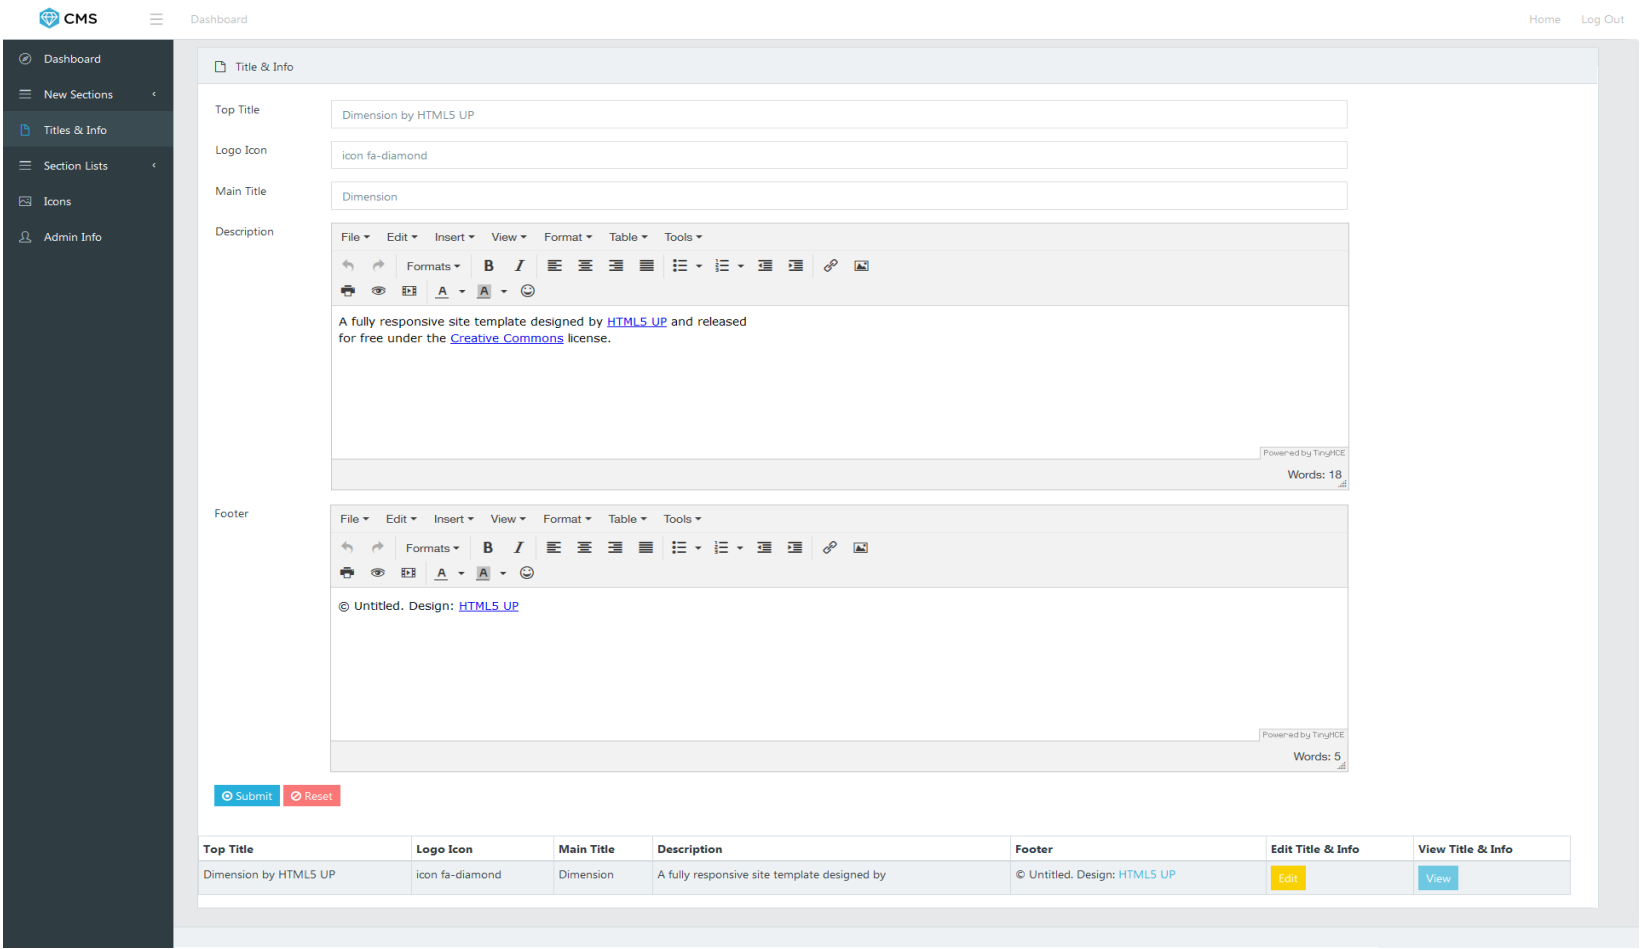

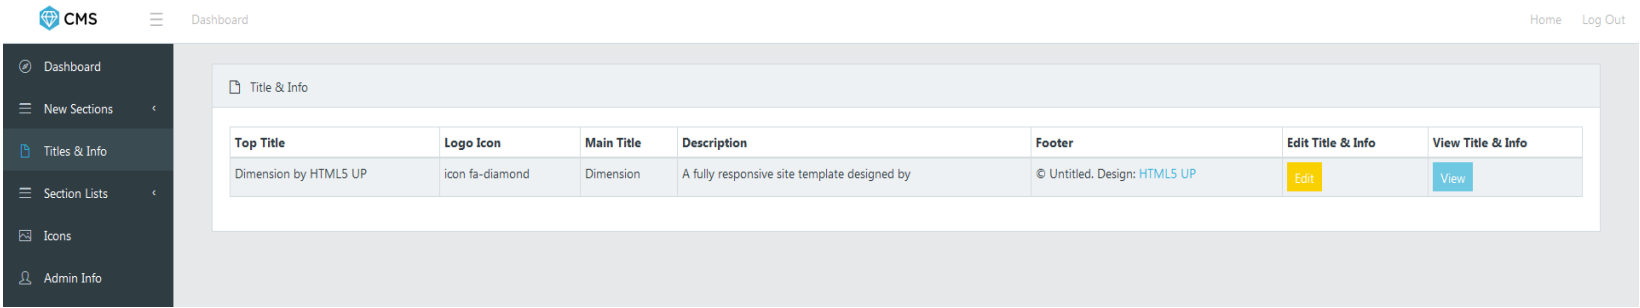

These 2 images below showing the '**Login page**' and once you login you will see the '**Dashboard**':

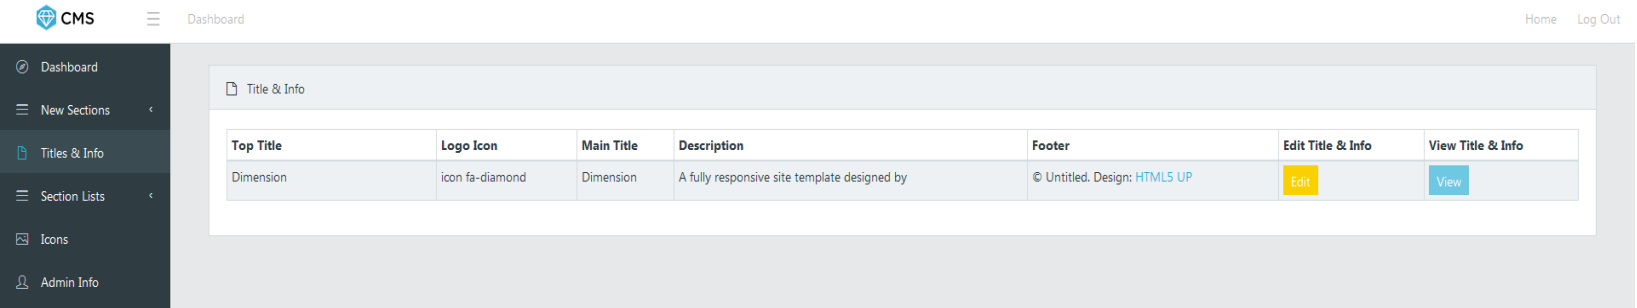

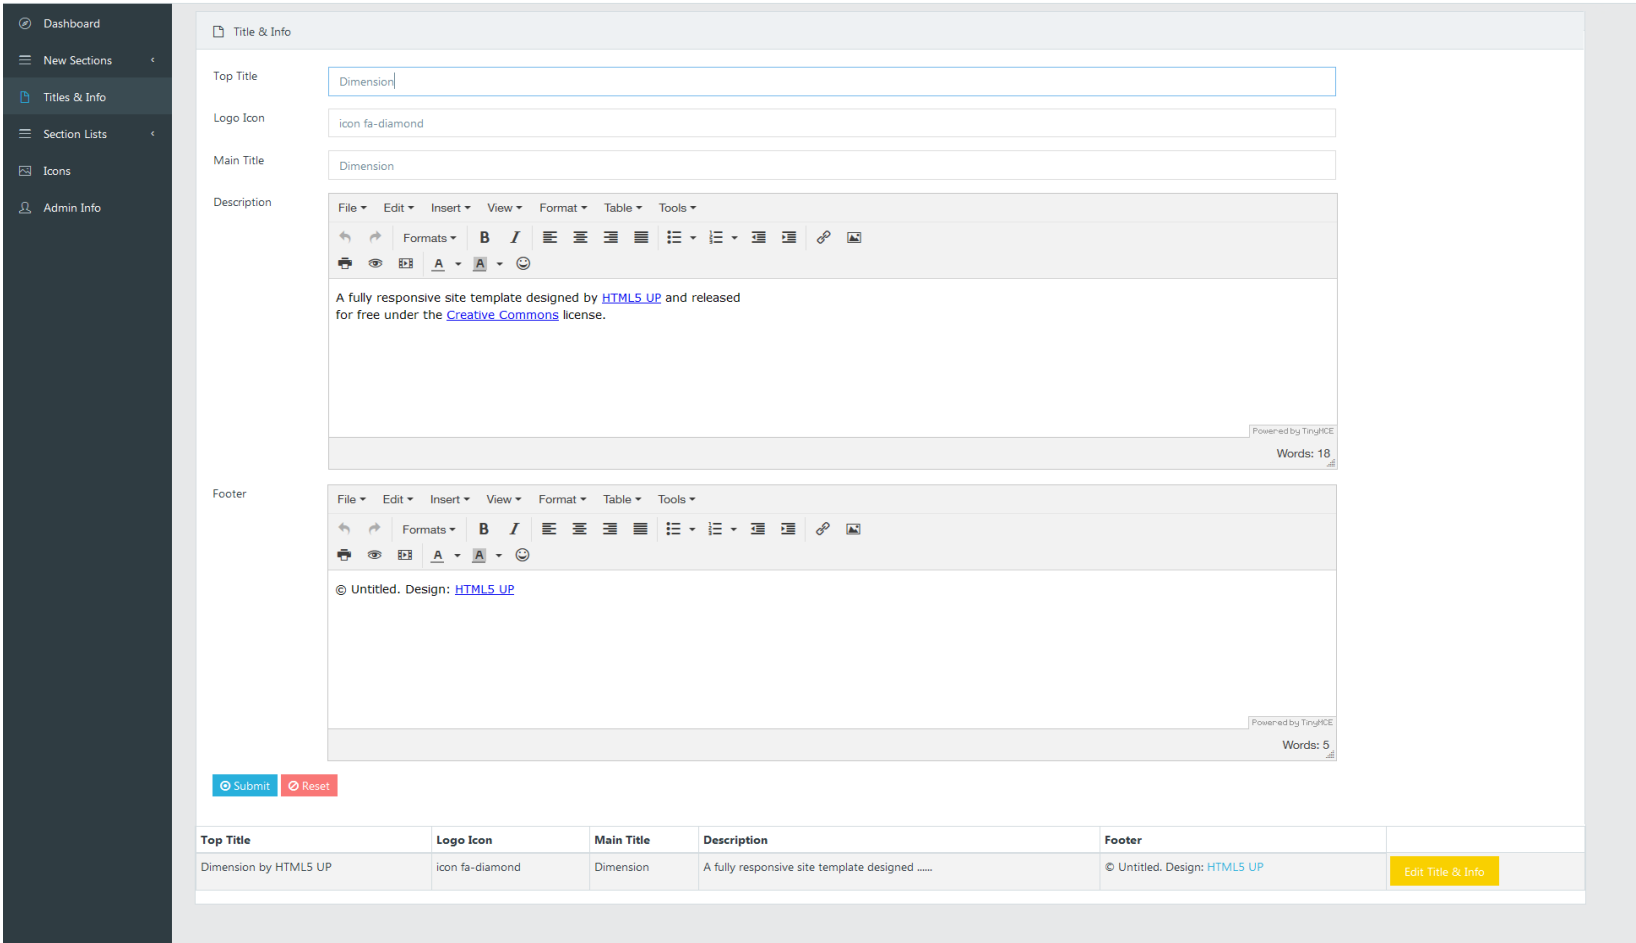

Titles & Info

The **Titles & Info** section updates the title and header info.

These 2 images below showing the **Titles & Info** page and when you click on ‘**Edit**’ it will display info where you can update the info:

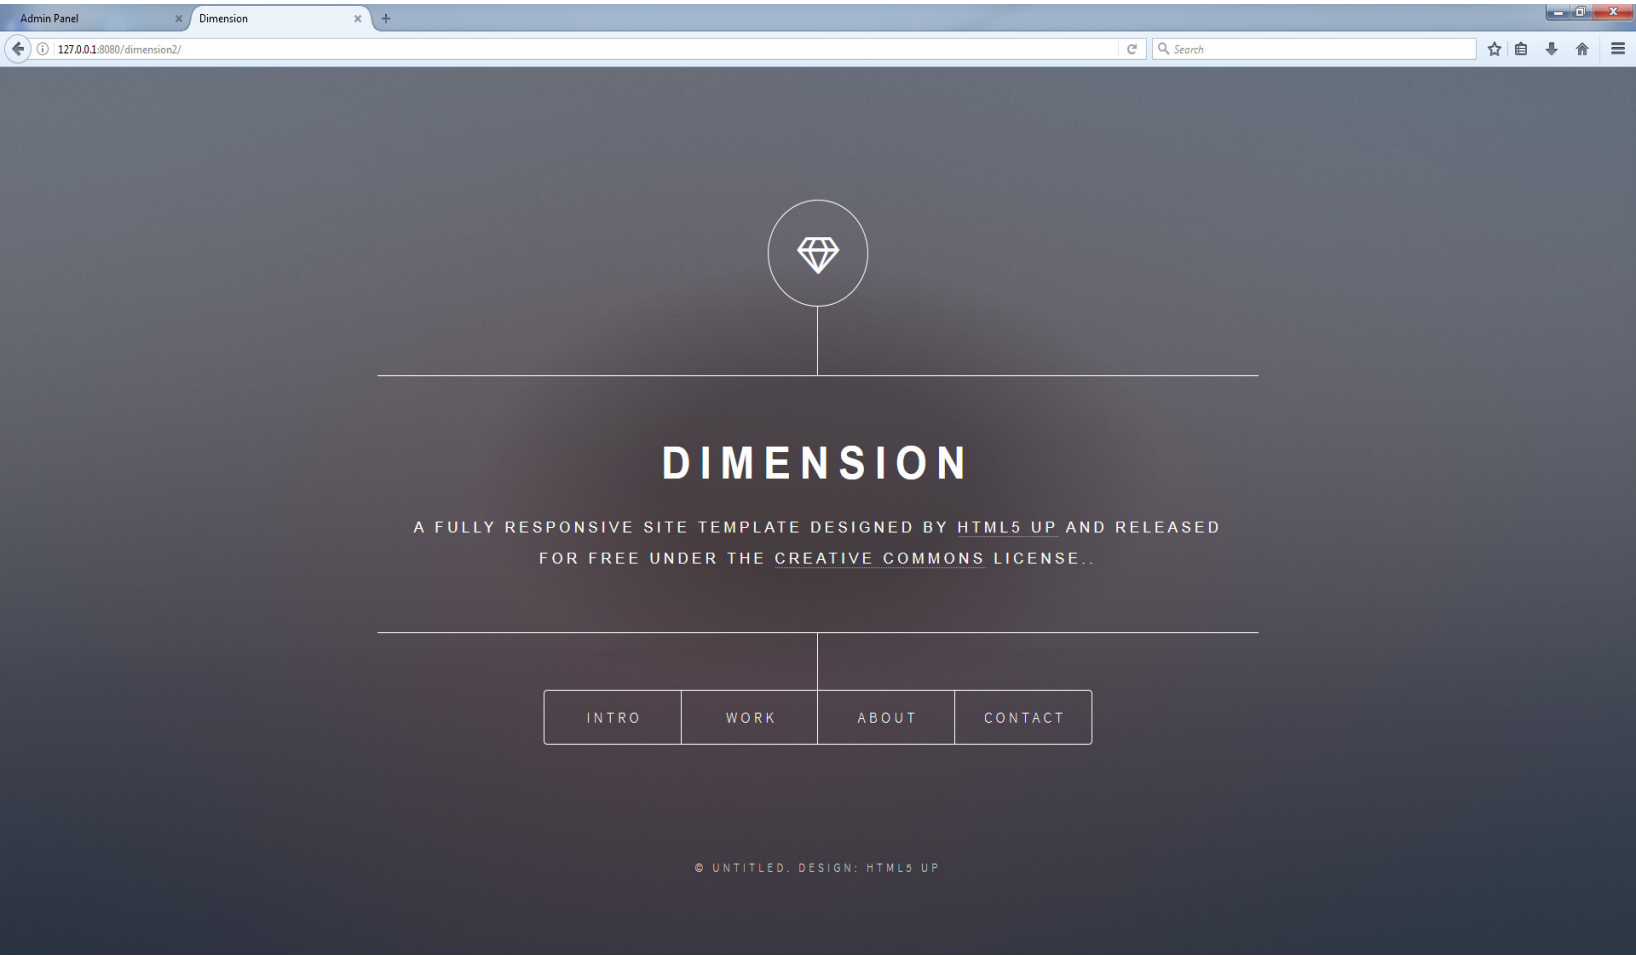

On the top left images show I decided shorting the title on the tab from ‘**Dimension by HTML5 UP**’ to just ‘**Dimension**’.

Once I click on the ‘**Submit**’ button it will save the changes.

Then you can view the changes, when you click ‘**View**’.

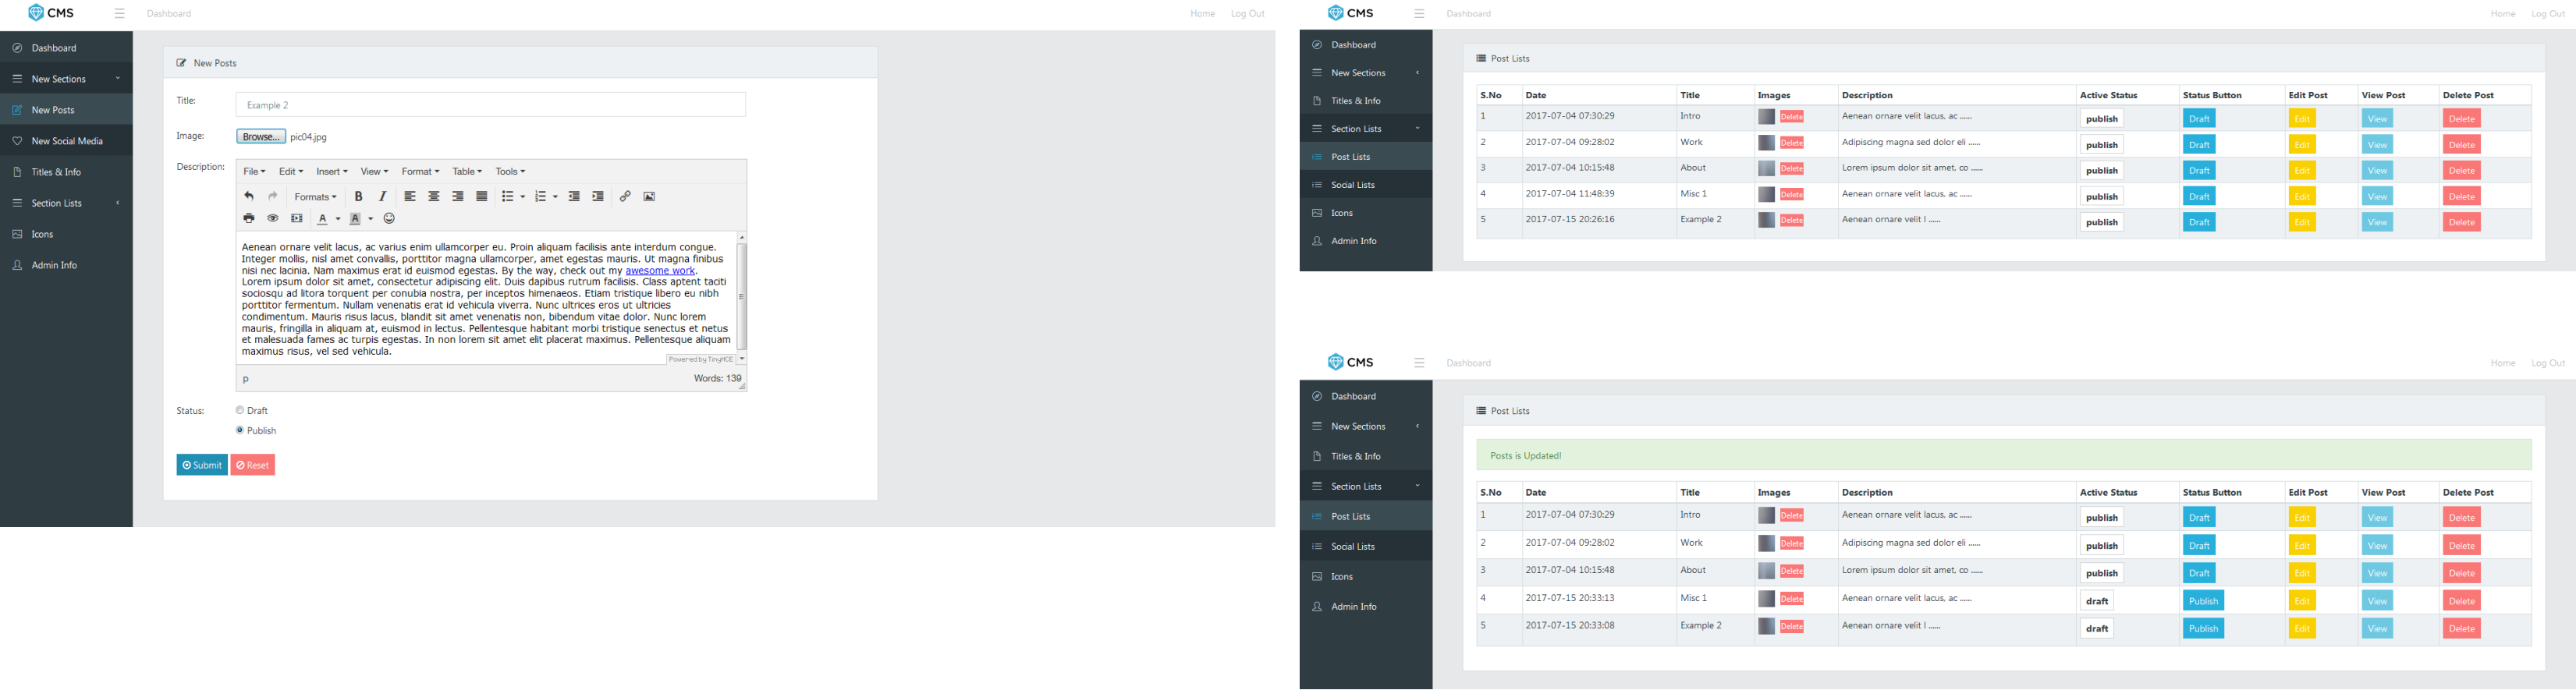

It open a new tab and you will see the top title is change from ‘**Dimension by HTML5 UP**’ to just ‘**Dimension**’.

Post

The **Post** section updates pages. It also added to the navigation bar on the frontpage.

These 3 images below show the ‘**Post**’ page, the first image show the ‘**Add**’ pages and the second image show the ‘**Post List**’ after you add the new page. The last image, you can click ‘**Published**’or ‘**Draft**’ the pages to appear on the front page.

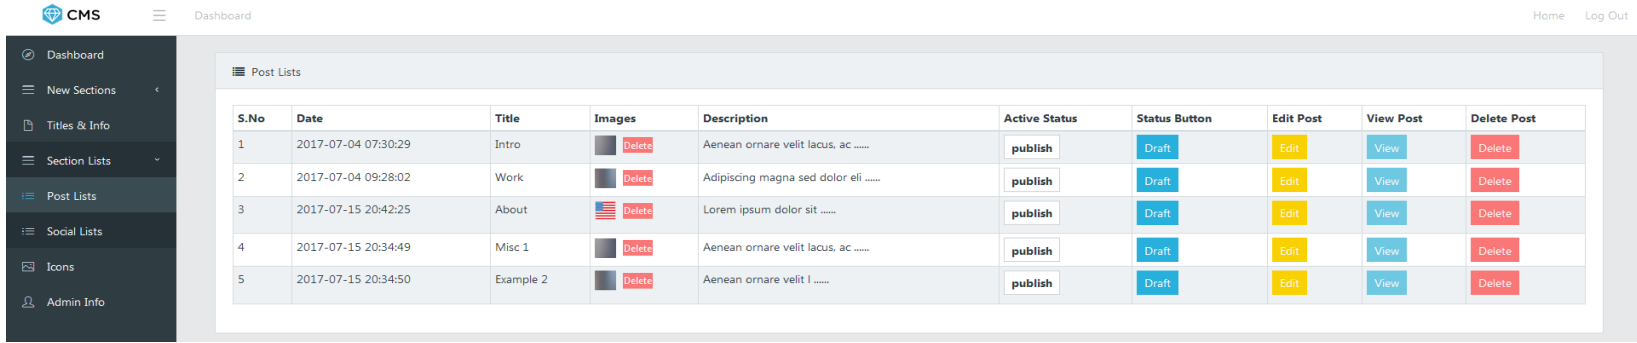

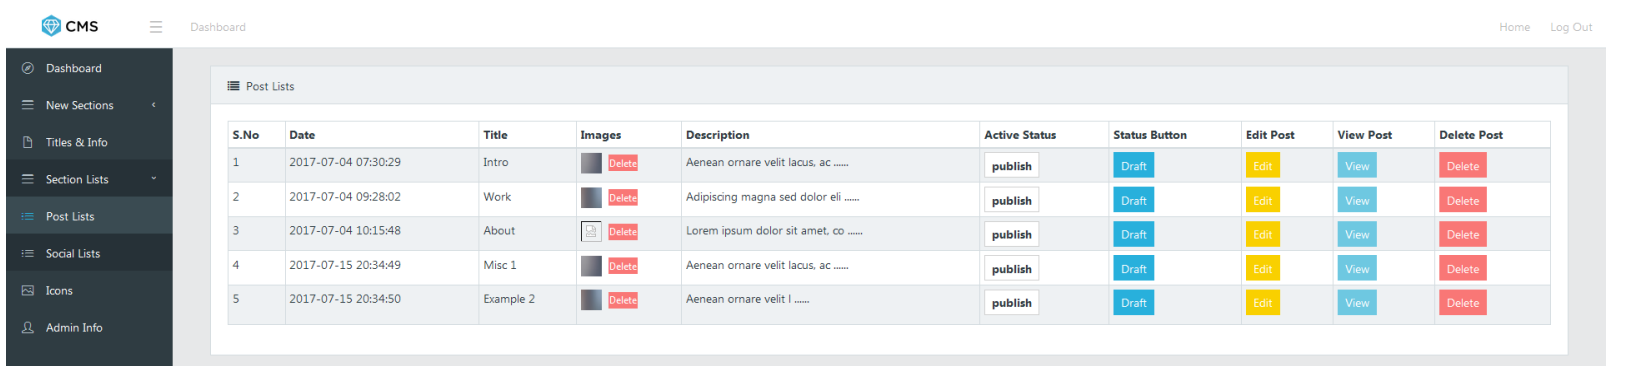

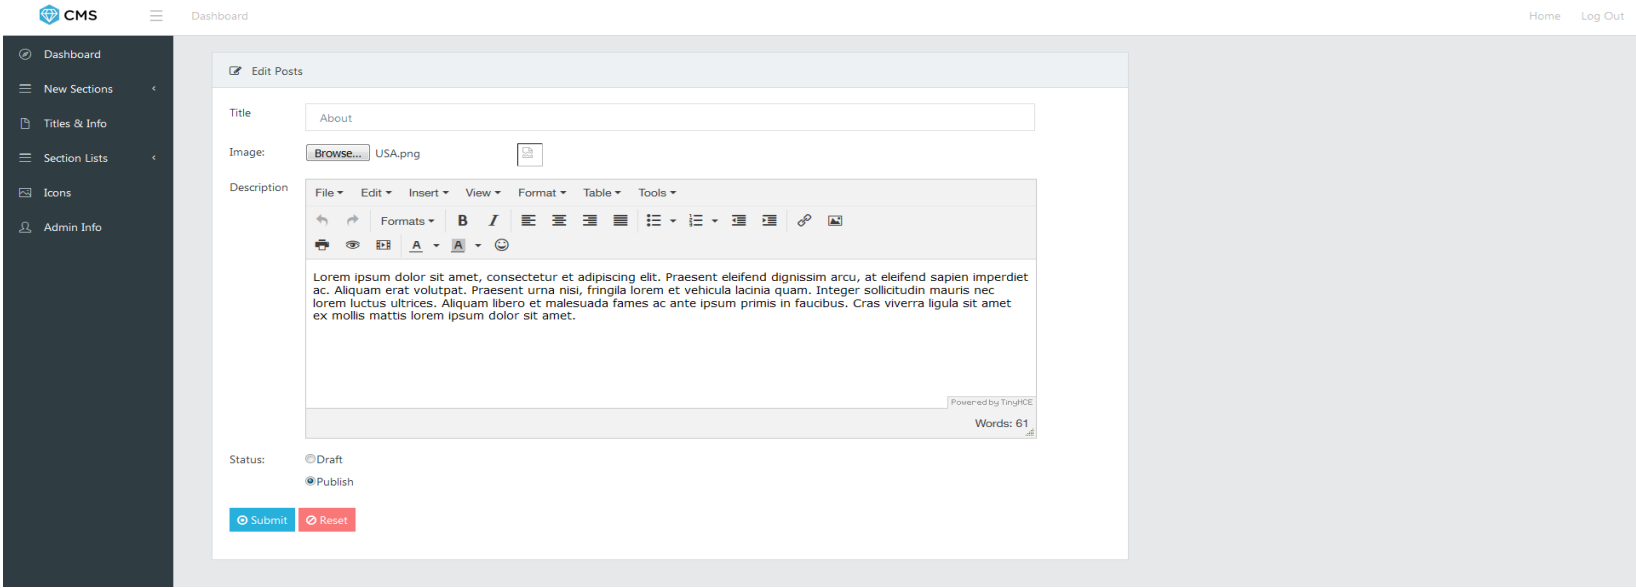

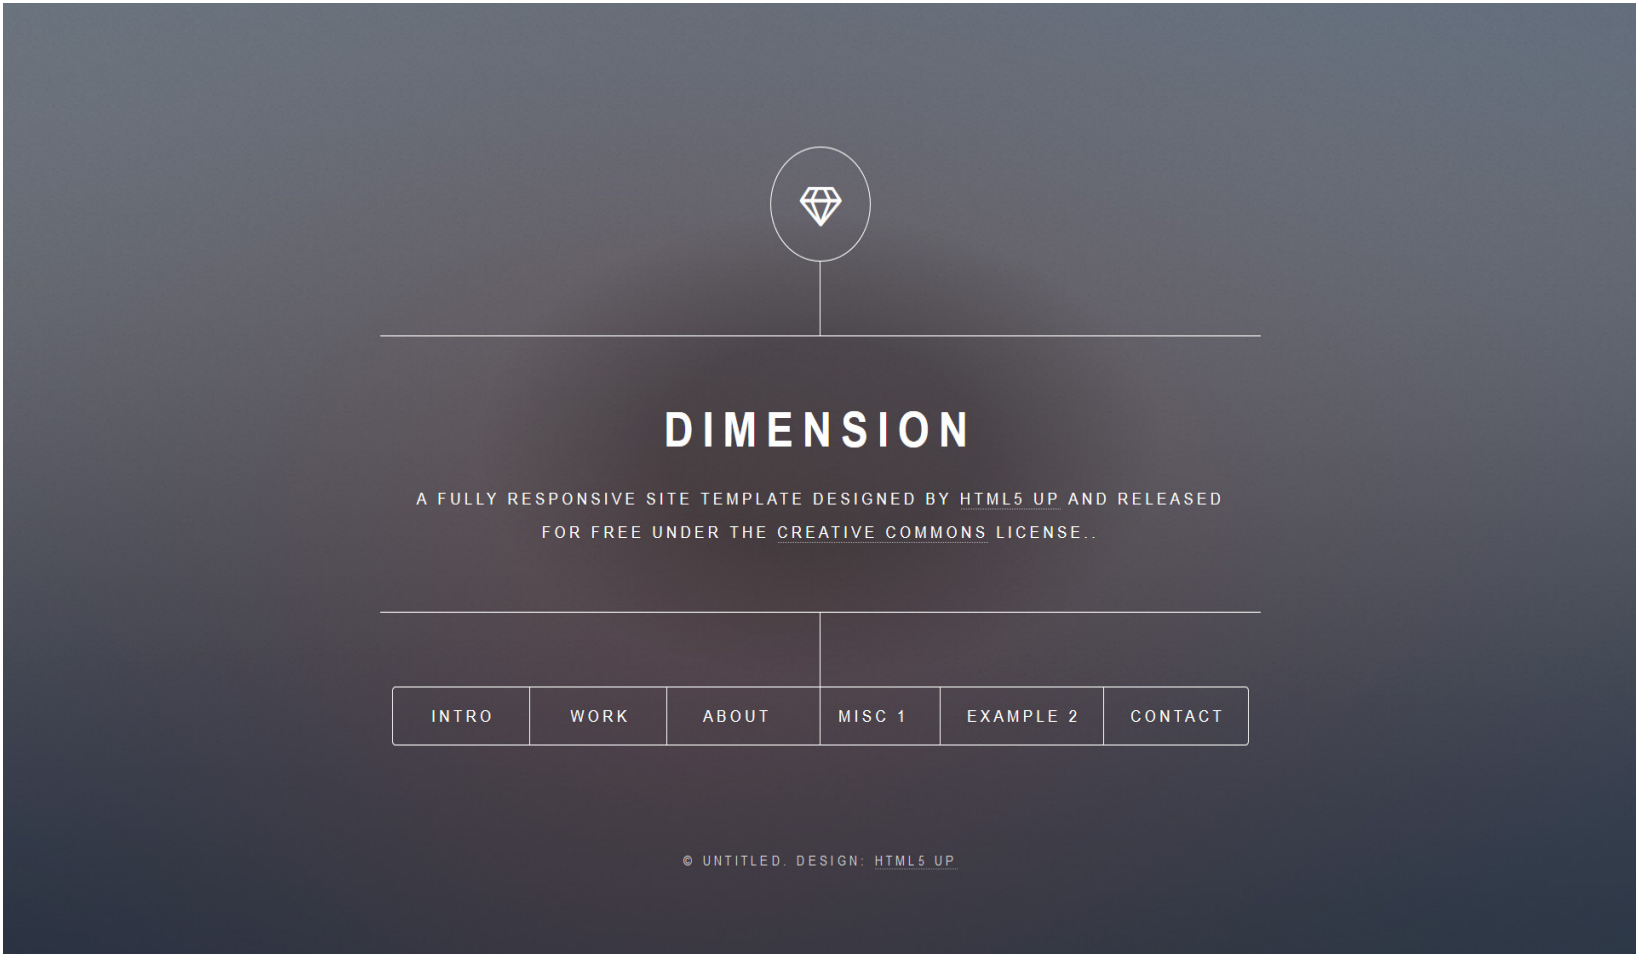

The 4 images below from starting from top left image to bottom right image.

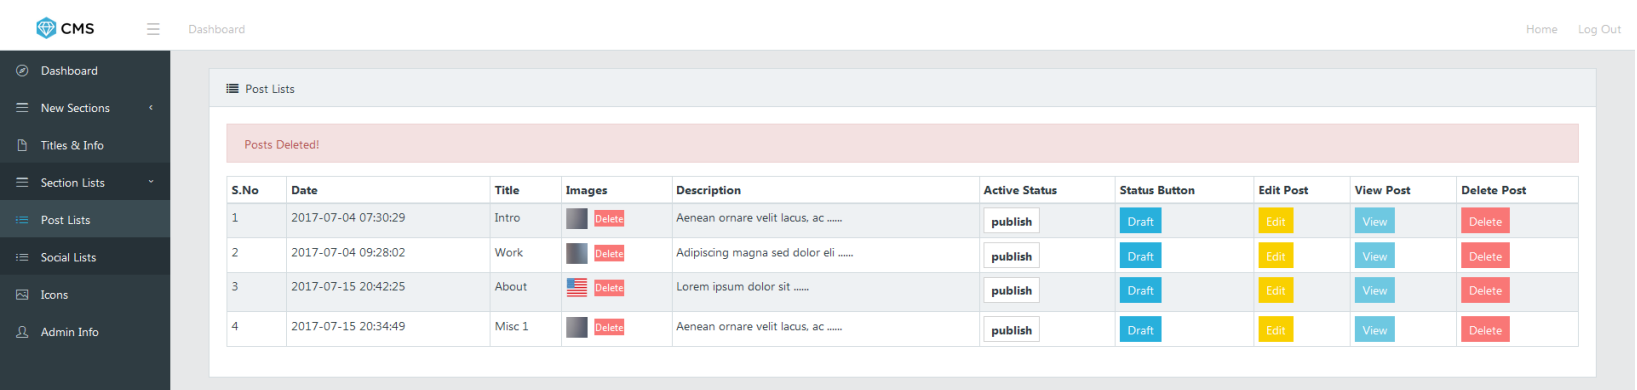

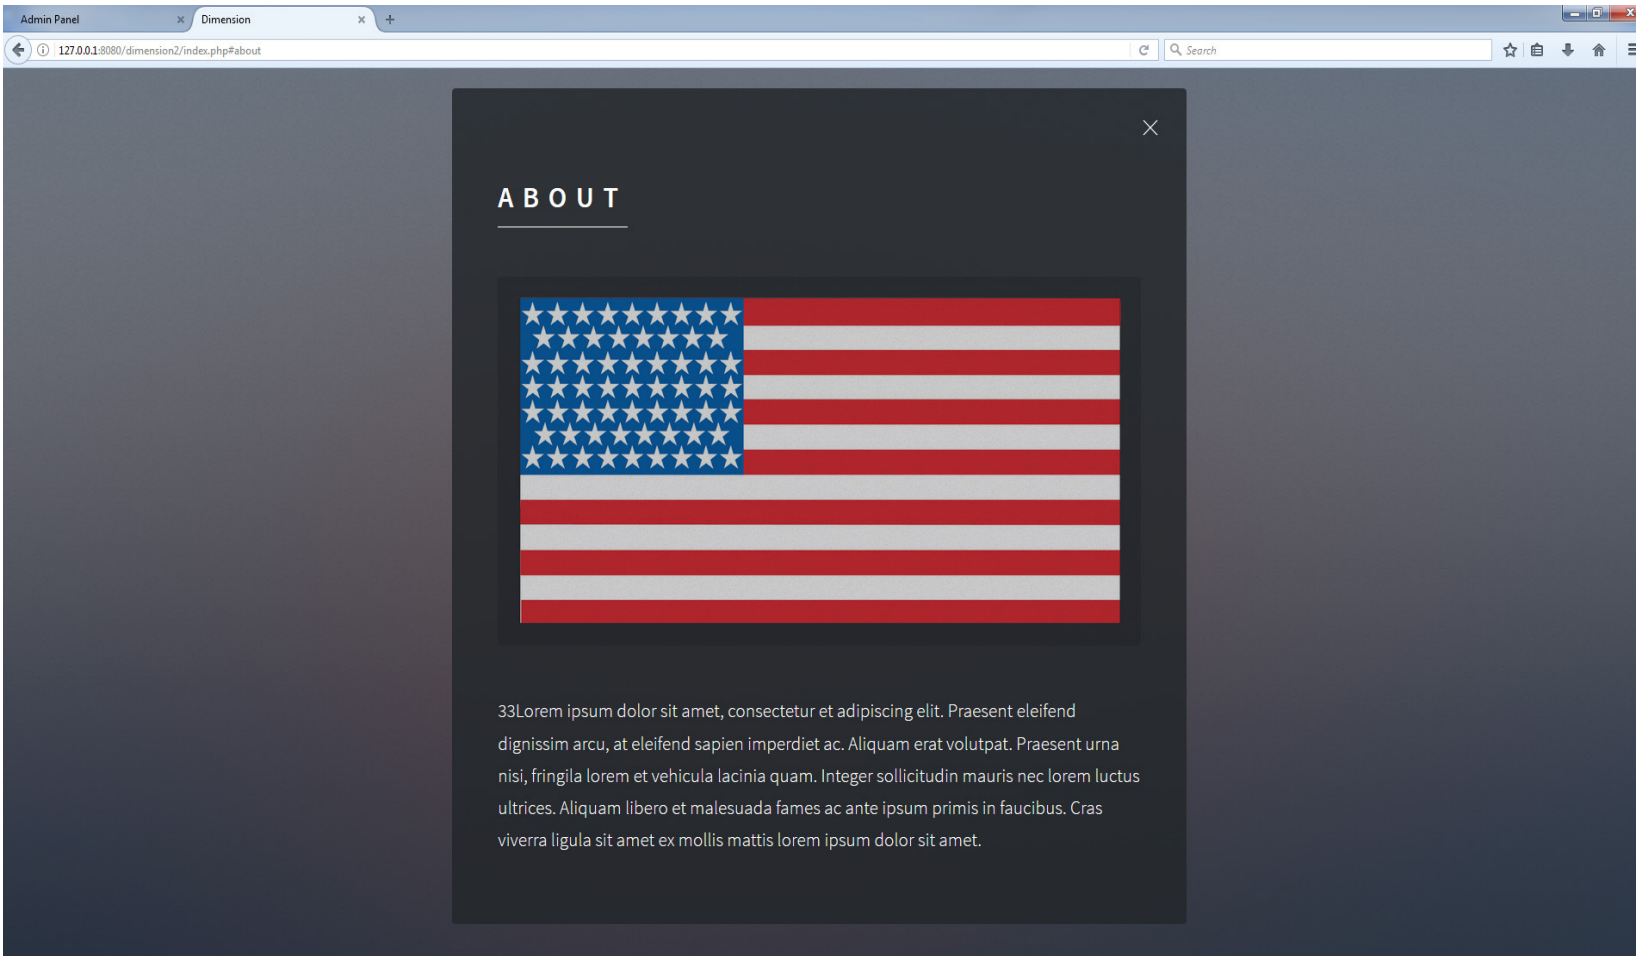

If you decided to published the page click ‘**View**’ and it will open the tab showing 6 nav bar on the top left image.

On the top right image, if you decided to delete the images, you click ‘**Delete**’ which is next to the thumb-size image.

On the bottom left image, you click ‘**Edit**’ and upload a new image and also change info. I upload the USA flag as an example and update no info.

Then click on the ‘**Submit**’ button and it will take you back to the ‘**Post List**’ and you will notices the flag which is the bottom right image.

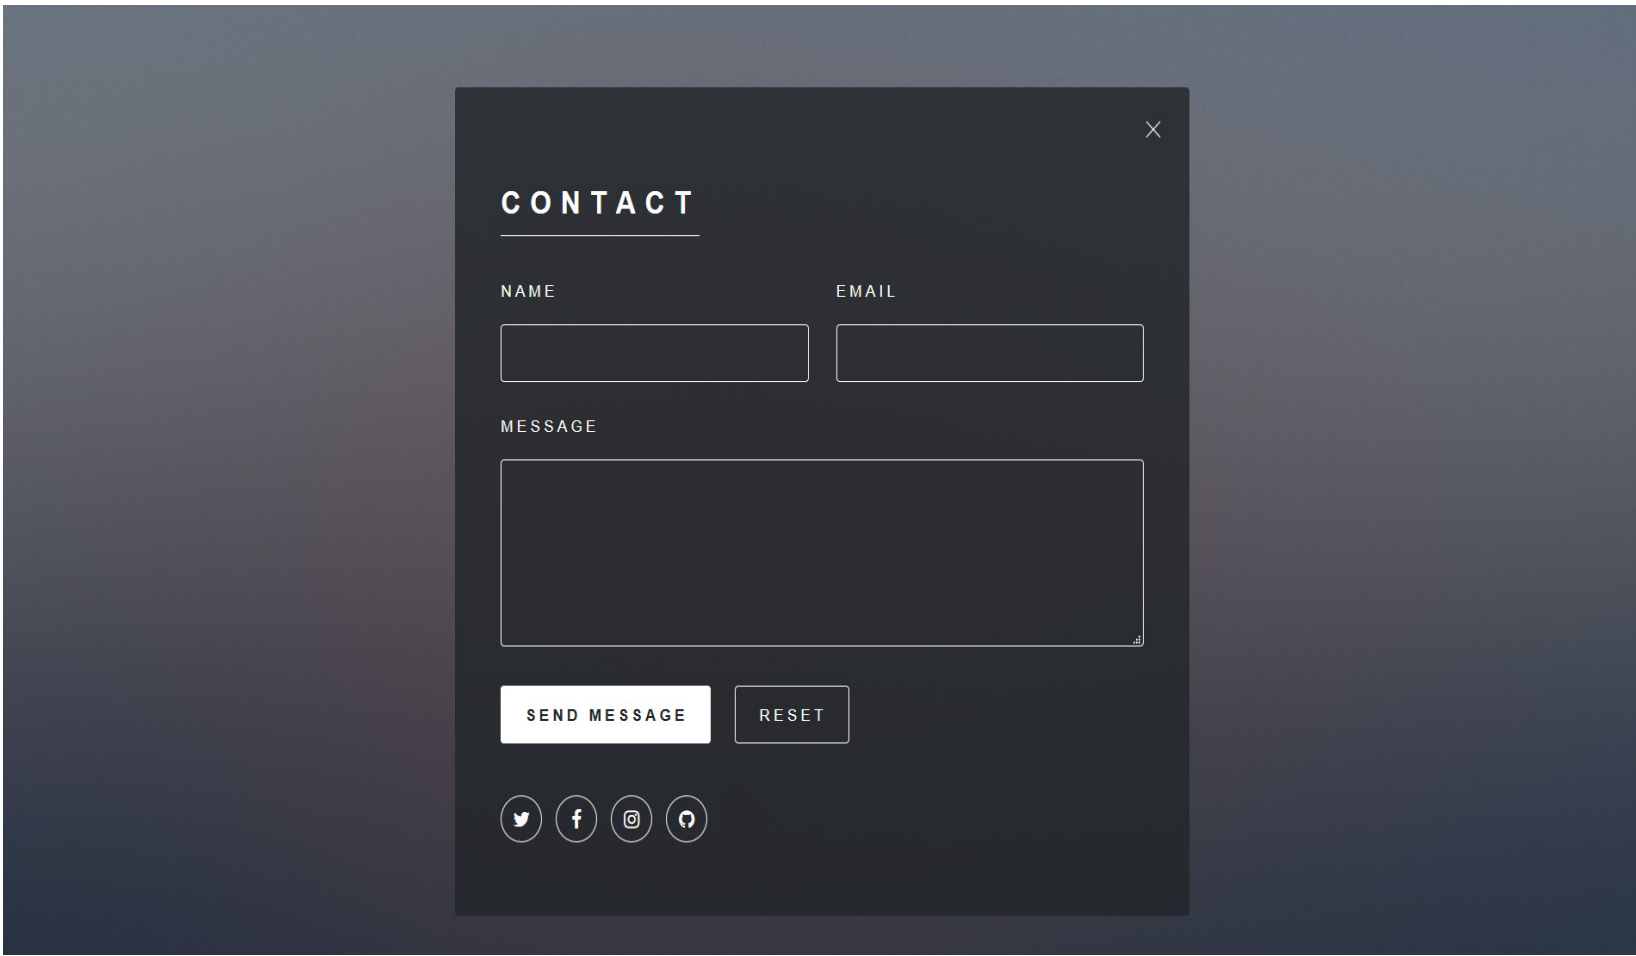

On the top left image, if you want to view the article page, you click on ‘**View**’ button and it will open the tab and displaying the flag on the page.

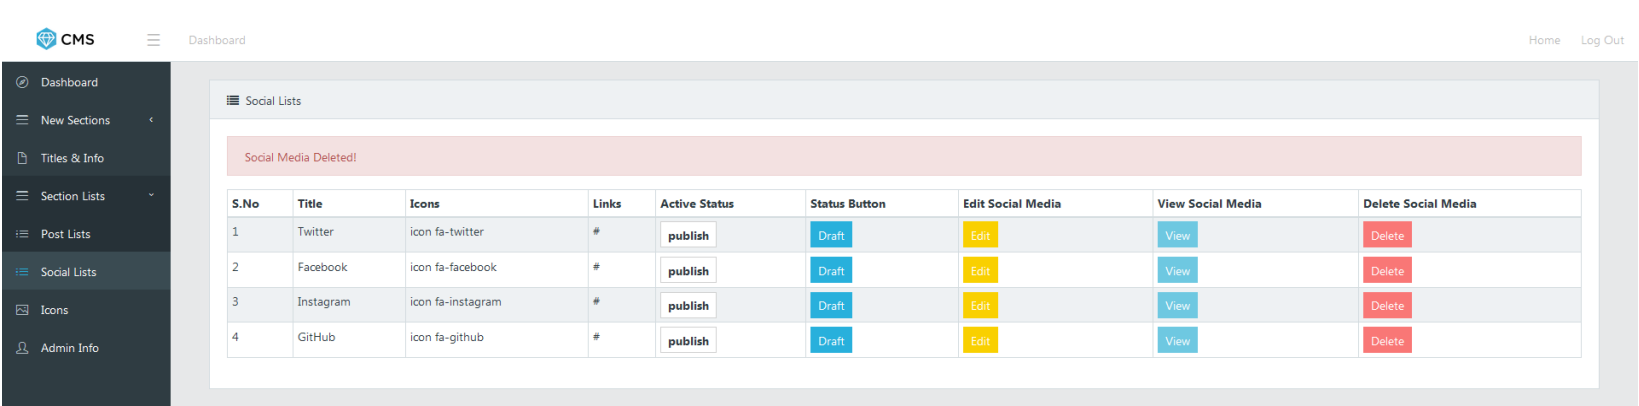

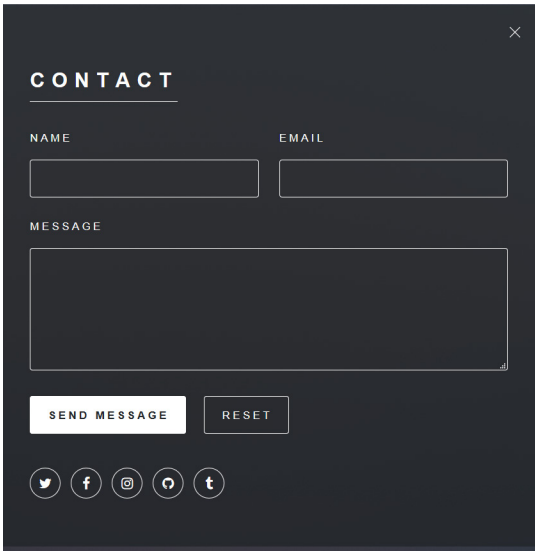

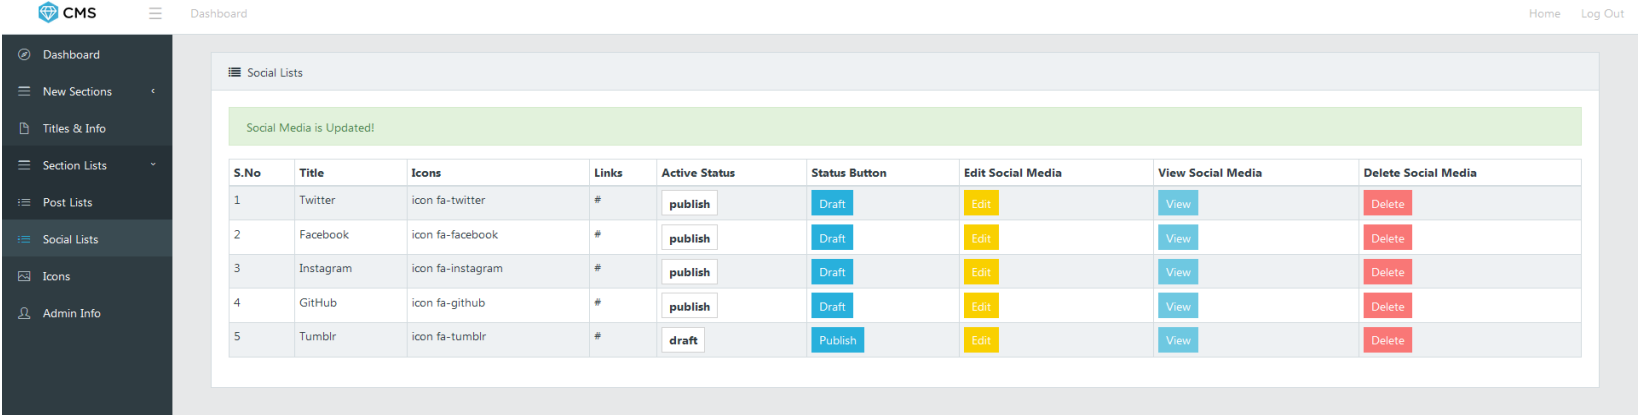

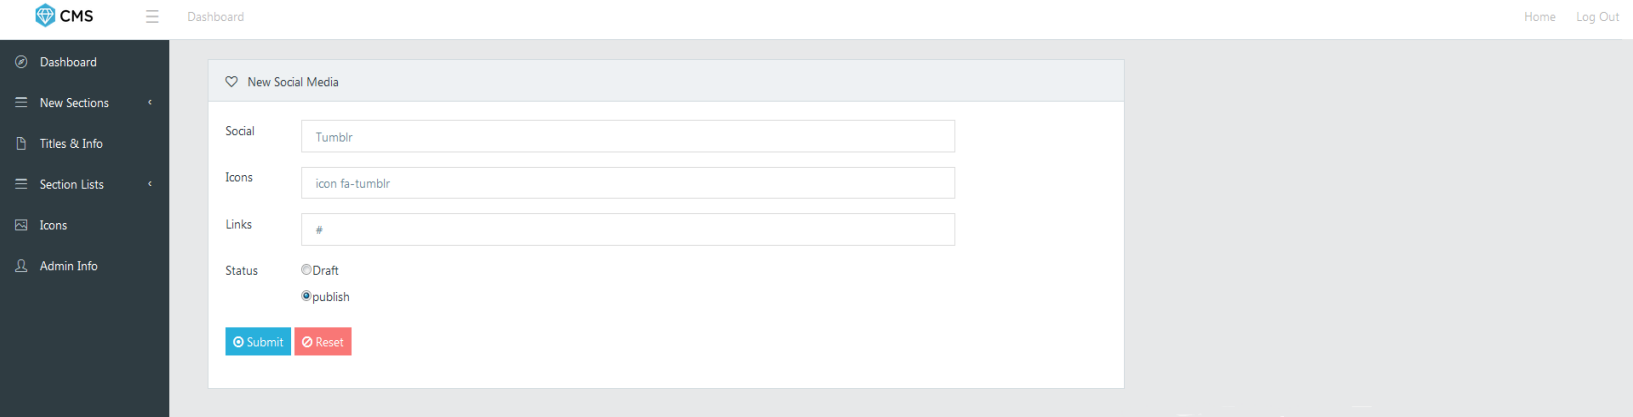

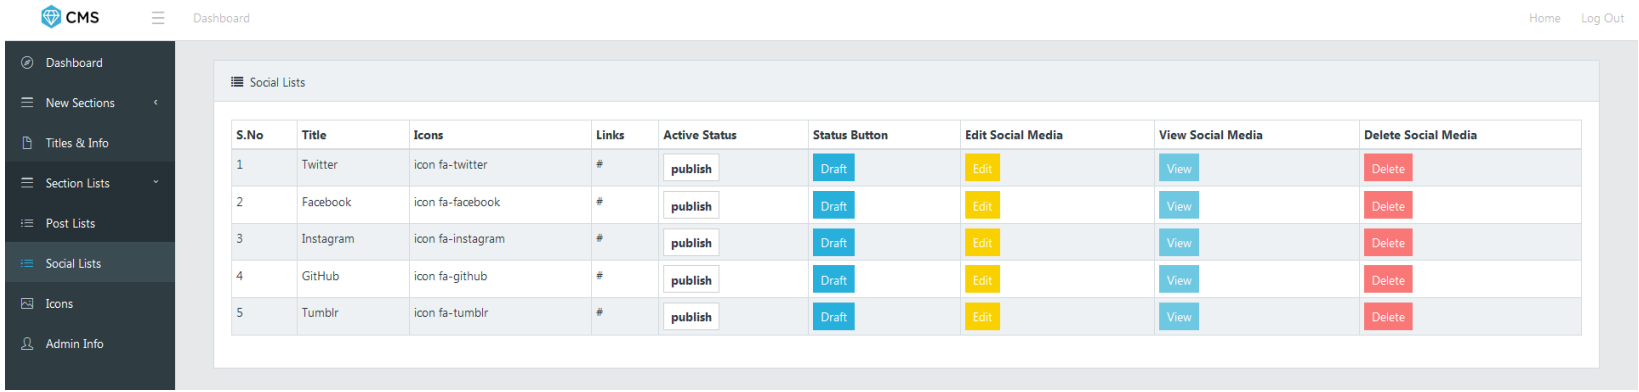

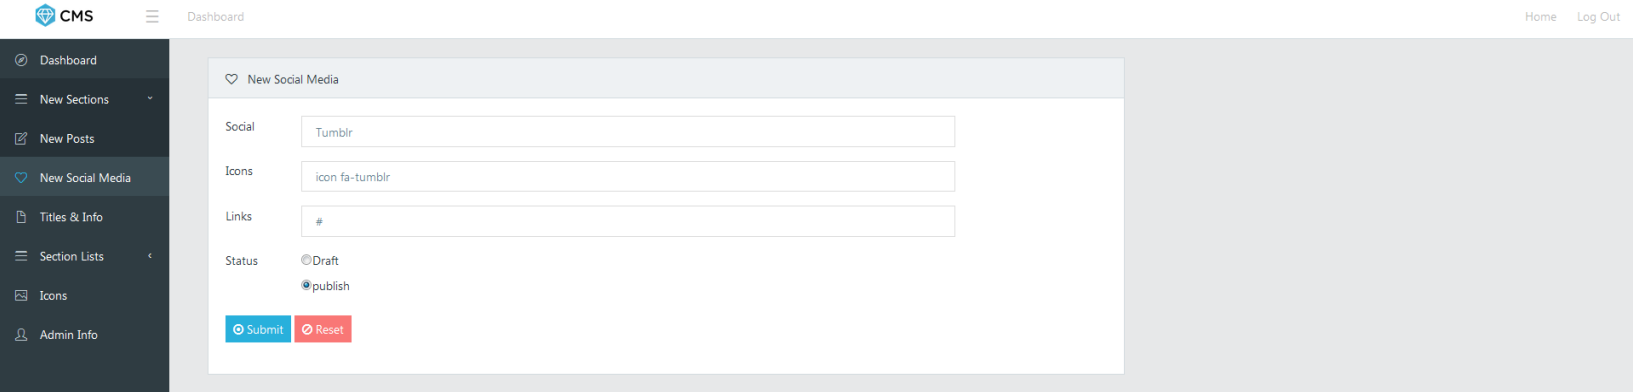

On the top right image, If you decided to delete the article page, you can click the ‘**Delete**’ button.

The last page is the ‘**Contact**’ page is where the users can send you an message.

Social Media

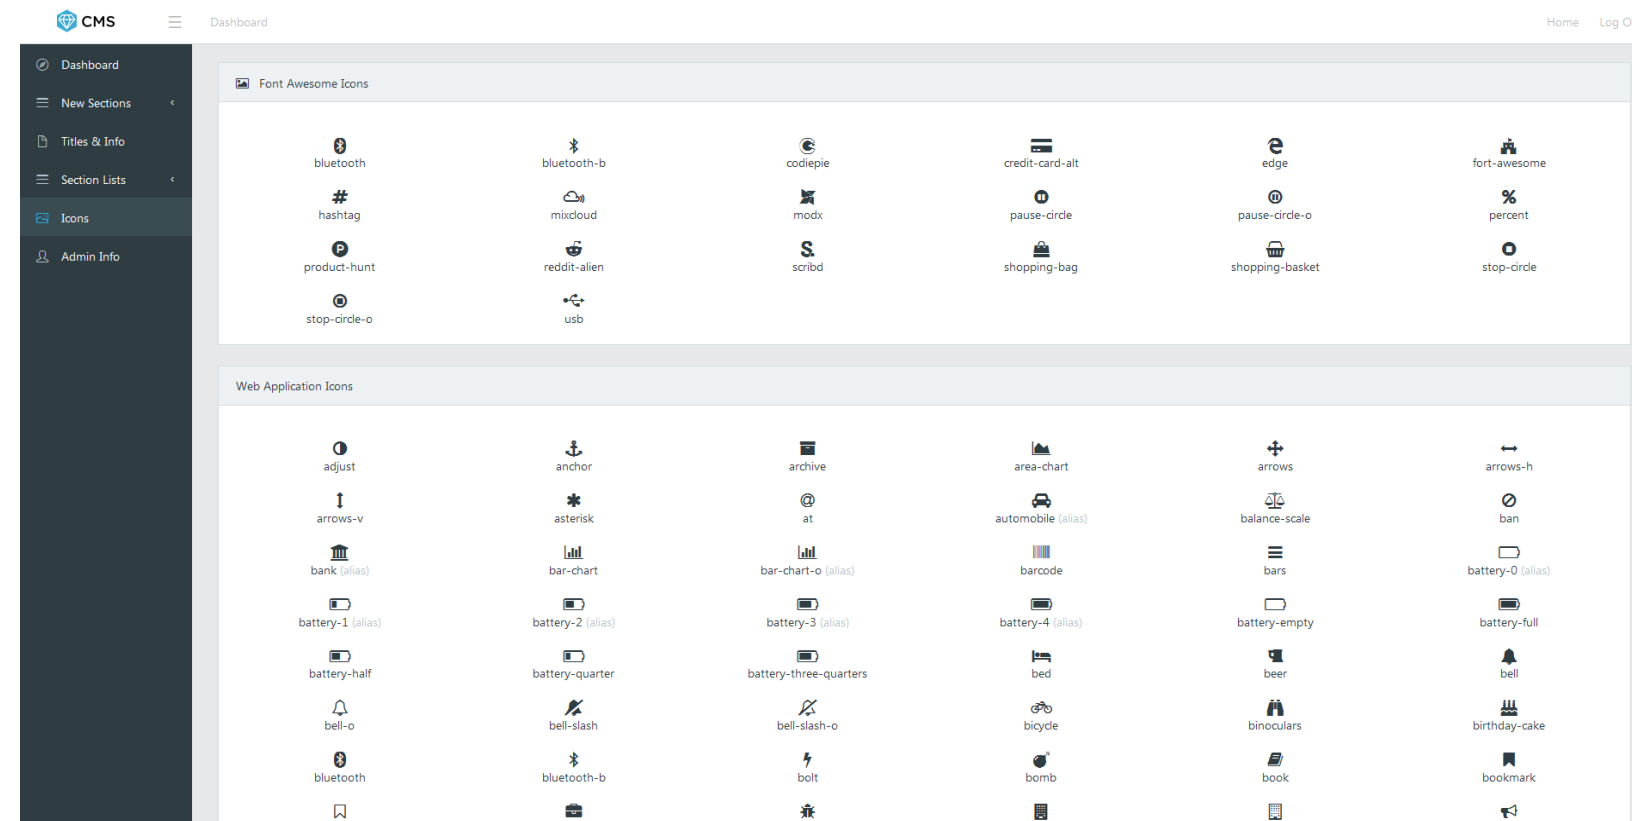

The **‘Social Media’** section is where you update the social media on the contact page. The images start from left to right. These 6 images below show the **‘Social Media’** Add page and then **‘Social Media List’** page and then you **‘Edit’** and **‘View’** the changes and and also **‘Published’** or **‘Draft’** the page and also **‘Delete’** the page too

Icons

The **Icons** section display the bunch of icons for you to choose for the logo or add another social media button on the contact page

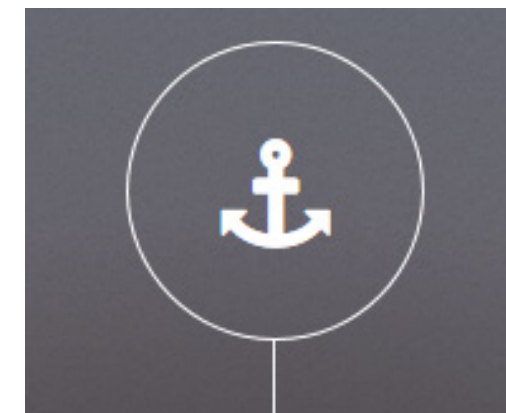

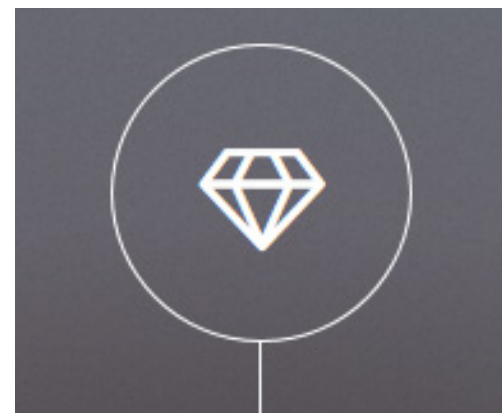

The image below show the '**Icons**' section which you can update the logo and also add other social media:

To update or change the icons of your choice, you have to enter in front of the selected icon:

From this **'icon fa-diamond'** to your new icon **'icon fa-anchor'** :

Then the icons appear correctly, if not the icons won't appear.

Admin Page

The ‘**Admin Page**’ section is where you update your username and password.

These 4 images below display the ‘**Admin Page**’ starting from the top left corner image and to the bottom right corner image.

The top left image shows the ‘**Admin Page**’.

The top right image shows, if you want to change the username or password. You click the ‘**Edit**’ button.

The bottom left image shows you update the username and password. Then you click ‘**Submit**’ button.

The bottom right image shows you update the username and password.
